

Ready Your Business for Anything with Modern Meeting Technology

54% of business leaders are redesigning their meeting spaces to support hybrid work, ensuring teams can thrive from anywhere. As collaboration and communication evolve, organizations need future-forward solutions that adapt to changing workplace demands and drive business growth.

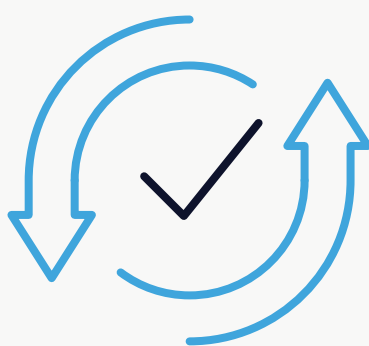

Microsoft Teams Rooms, empowered by AI tools like Microsoft Copilot and Microsoft Places, makes that easier than ever, creating a seamless user experience that expands across distances and ensures teams are ready to go wherever their meetings take them.

Easy to Use

Nobody wants to waste time during a meeting trying to figure out how to connect. Ease of use is critical and Microsoft Teams Rooms delivers.

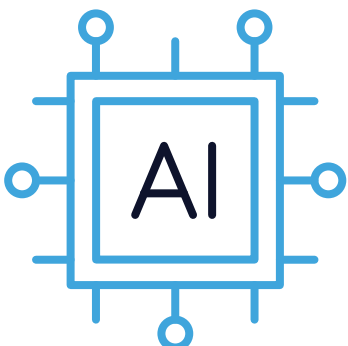

- › **Bring Your Own Device:**
Use personal devices you’re already familiar with.
- › **One-Touch Join:**
Join with a single touch to always get started on time.
- › **Proximity Join:**
Effortlessly detect nearby meetings without searching for a link.

Reliable

Research shows 58% of people find technical or software glitches the biggest challenge of virtual meetings.² But Teams Rooms doesn’t let the quality of your meetings falter.

- › **Teams Admin Center:**
Monitor meeting quality and performance issues.
- › **Microsoft-certified Teams Devices:** Ensure a high-quality audio and video experience.
- › **Microsoft Intune/Microsoft Defender for Endpoint:**
Strengthen your security profile.

AI Powered

A full 64% of business owners think artificial intelligence (AI) will increase productivity.³ And Teams Rooms uses AI to make meetings more productive too.

- › **AI-Powered Audio and Video:**
Suppress excess noise and ensure everyone can contribute.
- › **Microsoft Copilot:**
Keep everyone in the loop with recaps, subtitles and transcripts.
- › **Microsoft Places:**
Easily coordinate face-to-face time and book meeting spaces.

Invest in the Future of Your Business

Start taking advantage of the productivity and collaboration gains of Microsoft Teams Rooms—and benefit from a 273% return on investment.⁴
